DELIVER

Whether it's the car you drive every day or the one you've kept under cover for decades, every vehicle deserves safe, careful passage — on a plan that fits your budget.

HOW YOUR VEHICLE TRAVELS

Open or Enclosed — Your Choice

Cend moves vehicles on both open and enclosed carriers, so you can match the level of protection to the vehicle — and to the budget.

Open Carrier

The most common and cost-effective way to ship. Your vehicle rides securely on a professional multi-car transporter — the same method used to deliver new cars to dealerships.

Enclosed Carrier

Complete protection from weather and road debris inside a fully closed trailer. The preferred choice for luxury, exotic, antique, and collector vehicles.

BUILT AROUND YOUR BUDGET

Choose Your Load Window

Cost is driven partly by how flexible your pickup timing is — the more room you give us to load, the more we can save you.

1

DAY LOAD

PRIORITY

A tight, expedited pickup window for when timing matters most.

3

DAY LOAD

BALANCED

A flexible middle ground of speed and savings — our most popular choice.

5

DAY SPREAD

BEST VALUE

The most flexible window, and the most economical, when your dates are open.

MORE THAN CARS & SUVS

What We Move

If it has wheels — or a hull — we can ship it. Our carriers and equipment handle far more than everyday vehicles.

01 Every Kind of Vehicle

Cars & SUVs

Daily drivers, sedans, trucks, and family SUVs, coast to coast.

Trikes

Three-wheelers and touring trikes handled with the right tie-downs.

ATVs & UTVs

Off-road and utility vehicles loaded and secured for the road.

Motorcycles

Secured and crated as needed for safe, upright transport.

Golf Carts

Personal and custom carts moved between homes and clubs.

Boats & Watercraft

Trailered boats and personal watercraft, arranged end to end.

Not Running? Not a Problem.

A vehicle that won't start, roll, or steer can still be moved. Cend brings specialized winch and loading equipment to bring an inoperable vehicle safely onto the over-the-road truck. Just tell us in advance so the right gear is on board — some non-running vehicles require additional handling.

PLEASE NOTE — WHAT CAN TRAVEL INSIDE

By U.S. Department of Transportation regulation, household goods and personal items cannot be shipped inside a vehicle carried on an auto transport. Please empty your vehicle before pickup — it must travel with only its factory equipment.

PEACE OF MIND, INCLUDED

Coverage & Value

Cend has negotiated preferred rates with trusted carriers — and built in the protection your vehicle deserves.

02

What's Included

\$100,000 Per Vehicle, Included

Every vehicle we ship is covered up to \$100,000 — at no additional charge.

Preferred, Negotiated Rates

Our carrier relationships and volume mean genuinely favorable pricing, passed on to you.

Extra Coverage, Minimal Cost

For higher-value vehicles, additional protection is available for a small added fee.

Door-to-Door Convenience

We coordinate pickup and delivery as close to your door as access allows.

03

Built for the Extraordinary

Exotics, Classics & Collectors

High-value and antique automobiles travel in a liftgate-equipped enclosed carrier — raised and lowered on a hydraulic liftgate, never driven up a ramp, and sealed away from weather, debris, and view.

Multi-Vehicle Collections

Moving several vehicles at once? We coordinate the whole collection on one plan and one point of contact.

Snowbird & Seasonal Shipping

Living between two homes? We move your vehicle north for summer and south for winter, on a schedule that follows you — many clients set a standing seasonal plan.

Nationwide & Cross-Border

From one residence to another across the country — or across a border — handled end to end.

Every vehicle, protected — and priced to fit.

THE CEND PROCESS

How Vehicle Shipping Works

One coordinated plan, one point of contact, from your first quote to the moment your vehicle arrives.

1

Request a Free Quote

Tell us the vehicle or vehicles, your pickup and delivery locations, and your timing. We'll recommend the right carrier and pricing.

2

Choose Your Service

Open or enclosed, and the load window that fits your budget — a 1-day, 3-day, or 5-day spread.

3

Schedule & Prepare

We confirm pickup and, if your vehicle isn't running, arrange the special loading equipment. Please remove all personal items — a DOT requirement.

4

Safe, Insured Transport

Your vehicle is professionally loaded, secured, and covered up to \$100,000 while it travels — with additional coverage available if you'd like it.

5

Delivery & Walk-Through

We deliver to your destination and review the vehicle's condition with you, start to finish.

From your driveway to your destination — handled end to end.

LET'S GET ROLLING

Every Vehicle, Safely Delivered.

Tell us what you're moving and where it's headed — Cend handles the rest. Open or enclosed, one vehicle or a whole collection, with preferred rates and coverage built in.
